IR

(#3)

عـامـر أشــرف

```java
public static void main(String[] args) throws FileNotFoundException {

    IR_3 x = new IR_3("D:\\doc1.txt","D:\\doc2.txt","D:\\doc3.txt");

}
```

====

```
run:
Word            Document_1      Document_2      Document_3

amer                2               1           null

go                  1             null          null

fcih                1             null            null

ir                null              1             1

good              null              1           null

course            null              1             1

easy              null            null            1
```

The Total repetition of all word in all documents is: {fcih=1, amer=3, go=1, ir=2, course=2, good=1, easy=1}
BUILD SUCCESSFUL (total time: 0 seconds)
